Dear Mr. Dwyer:

Purdue University was issued a Part 70 minor source modification on August 27, 1999, for a 17.7 MMBtu/hr #2 fuel oil fired electric generator, identified as BSG. A letter requesting correction of the General Information for the source was received on September 7, 1999. Pursuant to the provisions of 2-7-11 the approval is hereby administratively amended as follows:
